¹ As of reference year 2017, NRCan is no longer publishing the cement data. The quantity and value of gypsum, sand and gravel, silica, and stone used in the manufacture of cement products will no longer be deducted from the totals for gypsum, sand and gravel, silica, and stone.

² Production values for bentonite and diatomite have been included in clay products.

³ Shipments of stone to Canadian lime and clay plants are not included in this table.

⁴ Shipments of potash to Canadian potassium sulphate plants are not included in this table.

⁵ Mineral production of sand and gravel for Nunavut is included in Northwest Territories.

⁶ Coal data has been included with the non-metals. Data concerning coal originate from surveys conducted by Statistics Canada and inquiries on this topic should be addressed to the dissemination office at tel: 613-951-9497.

.. Not available for a specific reference period.

Note: The sum may not add up to the total due to rounding. This table excludes petroleum and natural gas. Data include shipments by producers regardless of industrial classification. For definitions regarding data contained in this table, refer to:
