¹ Beginning with reference year 2019, NRCan estimates are based on Monthly Survey of Smelters and Metal Refineries (MSMR).

² Starting in reference year 2019, iron ore will be separated into iron ore concentrates and iron ore agglomerates.

³ Numbers include both data sourced from Statistics Canada and NRCan estimates.

-- Not available for a specific reference period.

Note: The sum may not add up to the total due to rounding. This table excludes petroleum and natural gas. Data include shipments by producers regardless of industrial classification. For definitions regarding data contained in this table, refer to:
